

**The Office has been granted
the certificate to the ISO 9001:2008 and the ISO/IEC 27001:2005 standards**

The Hungarian Intellectual Property Office performs its functions under a certified integrated management system as from January 2011. In accordance with the certification the functions of the Office meet the requirements of the ISO 9001:2008 quality management and the ISO/IEC 27001:2005 information security management standards.

In compliance with the ISO 9001:2008 quality management standard the scope of the integrated management system includes the functions of the Office concerning the official examinations and procedures related to industrial property protection and copyright, state functions concerning documentation and information, and other services related to the basic functions of the Office.

In compliance with the ISO/IEC 27001:2005 information security management standard the scope of the integrated management system includes the functions of the Office concerning the official examinations and procedures related to industrial property protection and copyright, state functions concerning documentation and information, other services related to the basic functions of the Office, and the security of information systems used for other functions listed in the Deed of Foundation.

The certifying audit of the Office was carried out by SGS Hungary Ltd. which is a member of SGS Group (Société Générale de Surveillance) established in Switzerland. Based on the successful audit carried out under the most recognised and most accepted UKAS accreditation system, the certification was issued by “System & Services Certification” accredited certifying unit of SGS, according to which the Office is certified to ISO 9001:2008 and ISO/IEC 27001:2005 standards as from January 2011.
